All the Weyrs of Pern (1991) by Anne McCaffrey strives hard to recreate the golden age of Pern, seeking that alchemy that made The White Dragon. The results contained all the same ingredients, but the culinary results weren't quite as appetizing, striving to meet the expectations of a shrinking fanbase and a changing SF market. Continuing from where The Renegades of Pern ended, the AI called ...

Crafts, Holds, Weyrs and Thread have been a main staple in the Pern books since it all started. That is all about to change. For over one-thousand four-hundred years Pern has been plagued by the silvery menace that fell from the sky. A menace that only dragons seemed able to deal with. Finally a solution is found in the relics of an ancient past. Although I know it is not the last book of Pern ...

"When McCaffrey's beloved dragons roar and their riders soar on the beasts' mighty backs . . . fans of Pern will likely be enthralled."—Publishers Weekly For generations, the dragonriders had dedicated their lives to fighting Thread, the dreaded spores that periodically rained from the sky to ravage the land. On the backs of their magnificent telepathic dragons they flew to flame the deadly stuff out of the air before it could reach the planet's surface. But the greatest dream of the dragonriders was to find a way to eradicate Thread completely, so that never again would their beloved Pern be threatened with destruction. Now, for the first time, it looks as if that dream can come true. For when the people of Pern, led by Masterharper Robinton and F'lar and Lessa, Weyrleader and Weyrwoman of Bendon Weyr, excavate the ancient remains of the planet's original settlement, they uncover the colonists' voice-activated artificial intelligence system—which still functions. And the computer has incredible news for them: There is a chance—a good chance—that they can, at long last, annihilate Thread once and for all.

## Where To Download All The Weyrs Of Pern The Dragon Books Book 11

Let Anne McCaffrey, storyteller extraordinaire and New York Times and Sunday Times bestselling author, take you on a journey to a whole new world: Pern and discover not only its flora, fauna, population and cultural hierarchy, but the history of an entire civilization. If you like David Eddings, David Gemmell and Douglas Adams, you will love this. \*\*Finalist for the Hugo Award for Best Novel\*\* \*\* Winner of the HOMer Award for Science Fiction\*\* \*\*Finalist for the Locus Award for Best Novel\*\* 'Anne McCaffrey, one of the queens of science fiction, knows exactly how to give her public what it wants' - THE TIMES 'You have many hours of happy reading ahead.' - \*\*\*\*\* Reader Review 'Would certainly recommend to anyone looking for a story to lose yourself in and come out the other end replete.' - \*\*\*\*\* Reader Review \*\*\*\*\* A science fiction classic from a master of the genre. When AIVAS -- the Artificial Intelligence Voice Address System -- was first discovered at Landing, the entire planet of Pern was awed at the knowledge it divulged. All the history of the people of Pern was there. Dragonholders, Lord Holders and Craftmasters crowded into the tiny inner room to learn the secrets of their beginnings. Ana AIVAS had other gifts to offer -- stored information of old crafts that had been forgotten, of medicine, music and technology. But the greatest promise AIVAS offered was the chance to rid Pern of Thread forever. All the great ones of Pern began the long and arduous task of learning just how to operate the incredible plan. This was a plan of such daring and epic proportions that both dragons and riders would be put at risk...

Science fiction-roman.

Led by Masterharper Robinton and F'lar and Lessa, the people of Pern excavate the ancient remains of the planet's original settlement and uncover the colonist's voice-activated artificial intelligence system

"[McCaffrey is the] master of the well-told tale."—Chicago Sun-Times As long as the people of Pern could remember, the Holds had protected them from Thread, the deadly silver strands that fell from the sky. In exchange for sanctuary in the huge stone fortresses, the people tithed to their Lord Holders, who in turn supported the dragonriders, Pern's greatest weapon against Thread. But not everyone on Pern was protected. Some, like Jayge's trader clan, simply preferred the freedom of the roads to the security of a hold. Others, like Aramina's family, had lost their homes. Regardless of their differences, however, they all feared the outlaws who preyed on holds and holdless alike. The Lady Thella's renegades are the most dangerous yet—all they need is Aramina, whose telepathic link with dragons can help them evade the dragonrider patrols. But Jayge is out to stop Thella . . .and he will never let her have Aramina.

In this triumphant return to Pern, Anne McCaffrey takes us on an adventure as surprising and unforgettable as any that has come before . . . It is a time of hope and regret, of endings and beginnings. The Red Star, that celestial curse whose eccentric orbit was responsible for Thread, has been shifted to a harmless orbit, and the current Threadfall will be the last. Technological marvels are changing the face of life on Pern. And the dragonriders, led by F'lessan, son of F'lar and Lessa and rider of bronze Golanth, and Tia, rider of green Zaranth, must forge a new place for themselves in a world that may no longer need them. But change is not easy for everyone. There are those who will stop at nothing—not even violence—to keep Pern and its people pure. And now a brand-new danger looms from the skies . . . and threatens a catastrophe of unimaginable proportions. Once again, the world looks to the dragons and their riders to solve the crisis and save the world. But now, as the friendship of F'lessan and Tia begins to bloom into something more, unforeseen tragedy strikes: a tragedy destined to forever change the future—not just of the two young lovers, but of every human and dragon on Pern . . .

Travel back to the earliest days of Pernese history in this first-ever Dragonriders of Pern short-story collection! Join the original survey team as they explore Pern and decide to recommend it for colonization. Share the terror of the evacuation from the Southern Continent as a flotilla of ships, aided by intelligent, talking dolphins, braves the dreadful currents of the Pernest ocean. Learn how the famous Ruatha Hold was founded, and thrill with the dragonriders as they expand into a second, then a third Weyr. And discover a secret lost in time: the rescue of some of the original colonists before the planet was cut off forever! Building a new life on a distant world, braving the dreaded Thread that falls like silver rain from the sky only to destroy every living thing it touches, flying heroically on the wondrous dragons: The Dragonriders of Pern!

"[Anne] McCaffrey here adds yet another dimension to her colorful and vivid saga by focusing on the attractive dolphins and their highly believable society."—Publishers Weekly When the first humans came to settle the planet Pern, they did not come alone: intelligence-enhanced dolphins also crossed the stars to colonize Pern's oceans while their human partners settled the vast continents. But then disaster struck. The deadly silver spores called Thread fell like rain from the sky, and as the human colonists' dreams of a new, idyllic life shattered into a desperate struggle for survival, the dolphins were forgotten. Now, centuries later, as the dragonriders of Pern prepare to complete the momentous task of ridding their world of Thread forever, T'lion, a young bronze rider, and his friend Readis, son of the Lord Holder of Paradise River Hold, make contact with the legendary "shipfish." And as the dragonriders grapple with the end of an era, T'lion, Readis, and the dolphins face the start of a new one: reviving the bond between land- and ocean-dwellers—and resurrecting the dreams of the first colonists of Pern.

thrilling prequel about the creation of dragons. The beautiful planet Pern seemed a paradise to its new colonists—until unimaginable terror turned it into hell. Suddenly deadly spores were falling like silver threads from the sky, devouring everything—and everyone—on their path. It began to look as if the colony, cut off from Earth and lacking the resources to combat the menace, was doomed. Then some of the colonists noticed that the small, dragonlike lizards that inhabited their new world were joining the fight against Thread, breathing fire on it and teleporting to safety. If only, they thought, the dragonets were big enough for a human to ride and intelligent enough to work as a team with a rider... And so they set their most talented geneticist to work to create the creatures Pern so desperately needed—Dragons!
