Advanced Medical Life Support, Second Edition is the leading course for prehospital practitioners in the advanced medical assessment and treatment of commonly encountered medical conditions. Taught throughout the world since 1999, Advanced Medical Life Support (AMLS) was the first emergency medical services education program that fully addressed how best to manage patients in medical crises. AMLS is the only textbook approved for use by NAEMT's Advanced Medical Life Support course, which emphasizes the AMLS Assessment Pathway, the most important guide for assessing patients with medical conditions. The United Kingdom edition of AMLS is enhanced by: Key Features Critical thinking scenarios give students a genuine context for the application of the knowledge presented in the chapter, including a scenario solution. Students are able to assess, review, and discern the possible diagnosis of the patient. Chapter review questions, chapter summaries, and Putting It All Together sections reinforce key concepts and tie information together, helping students retain what they have learned. Endorsed by the National Association of EMS Physicians and the United Kingdom College of Paramedics, the course emphasises the use of the AMLS Assessment Pathway, a systematic assessment tool that enables healthcare practitioners to diagnose medical patients with urgent accuracy. Current Medical Content Coverage of basic and advanced treatment modalities incorporate the latest research developments that are suitable for both beginning and experienced prehospital care providers, emergency and critical care nurses, and emergency doctors. An Updated AMLS Assessment Pathway The revised AMLS Assessment Pathway provides a systematic approach to the assessment of a medical patient and even more direction for students at all levels of practice.

This revised reprint is now updated to reflect the new 2005 emergency cardiac care guidelines. Using a case-based approach, it offers the most realistic view of prehospital emergency care. This unique text is the only case-based text available covering all of the information needed for paramedic refresher and certification preparation and review. In a concise, user-friendly format, the text features basic concepts of patient assessment and treatment, incorporating anatomy, physiology, and pathophysiology in the context of actual patient encounters. Each chapter presents several real-life emergency scenarios. Questions and answers follow for immediate feedback. Unique! The only case-based text on the market today for paramedics who are recertifying or taking the National Registry exam for the first time. The case-based approach uses actual patient encounters for realistic learning and increased retention to make information more easily applicable in the field. The text relates anatomy, physiology, and pathophysiology to patient signs and symptoms to promote understanding at the most basic levels, which means a more thorough grasp of the topic and better performance in the field. Content overviews! Each chapter provides a brief summary of the subject matter and integrates the content into patient scenarios to maximize comprehension. Each case includes the final diagnosis and outcomes based on actual patient situations. Questions, Answers, and Outcomes in each chapter encourage critical thinking skills and help the reader appreciate the consequences of decisions. A concise, one-column design provides a user-friendly format. Updated to reflect the new 2005 emergency cardiac care guidelines. Two new chapters - Scene Management and Weapons of Mass Destruction. Updated throughout to reflect the most current research, updated pharmacologic interventions, and new treatment standards. Chapters have been organized in the order of the National Standard Curriculum (NSC).

Use the PEPP Textbook in the EPC Course! Emergency Pediatric Care (EPC) is a comprehensive NAEMT education program for EMS practitioners on the care of sick and injured children, addressing a full spectrum of emergency illnesses, injuries and scenarios that an EMS practitioner might encounter. Pediatric Education for Prehospital Professionals, Third Edition represents a comprehensive source of prehospital medical information for the emergency care of infants and children. PEPP is designed to give prehospital professionals the education, skills, and confidence they need to effectively treat pediatric patients. Developed by the American Academy of Pediatrics, PEPP specifically teaches prehospital professionals how to better assess and manage ill or injured children. PEPP combines comprehensive medical content with dynamic features to fully prepare prehospital professionals to care for children in the field.

Patient assessment may be the most challenging subject for EMS students to grasp, and there never seems to be enough time in the classroom for practice. Patient Assessment Practice Scenarios allows students to fine-tune their understanding of the patient assessment process. This BLS- and ALS-level text includes 150 EMS practice scenarios (75 trauma and 75 medical) that focus on the assessment process as dictated by the National Registry medical assessment and trauma assessment skill sheets. Each case is a script of an emergency call. The student and proctor (who may or may not be an instructor) may read through the case for rote practice of the assessment process, or the student may verbally work through the assessment process, with cues from the book read by the proctor. Cases may also be used as homework, in the classroom, or for self-study! This book is for BLS or ALS students who want to successfully learn patient assessment inside and out before actually working in the field, and any EMS provider who wants to refresh his or her assessment skills.

Apolonia "Lina" Flores is a sock enthusiast, a volleyball player, a science lover, and a girl who's just looking for answers. Even though her house is crammed full of books (her dad's a bibliophile), she's having trouble figuring out some very big questions, like why her dad seems to care about books more than her, why her best friend's divorced mom is obsessed with making cascarones (hollowed eggshells filled with colorful confetti), and, most of all, why her mom died last year. Like colors in cascarones, Lina's life is a rainbow of people, interests, and unexpected changes. In her first novel for young readers, Diana López creates a clever and honest story about a young Latina girl navigating growing pains in her South Texan city.
