The UK Code of Non-broadcast Advertising and Direct & Promotional Marketing (CAP Code) is the rule book for non-broadcast advertisements, sales promotions and direct marketing communications.

### *Advertising codes - ASA | CAP*

The last CAP guidelines were released in 2007. Since then, much has changed. This guideline focuses on adults with community vs hospital-acquired pneumonia who have not traveled and who have a normal immune response. This is an epic guideline and, as such, is a pretty long post. It answers these 16 key questions. Let's get you up to speed.

### *New 2019 IDSA-ATS Community Acquired Pneumonia Guidelines ...*

In the more than 10 years since the last American Thoracic Society(ATS)/Infectious Diseases Society of America (IDSA) community-acquired pneumonia (CAP) guideline , there have been changes in the process for guideline development, as well as generation of new clinical data. ATS and IDSA agreed on moving from the narrative style of previous documents to the Grading of Recommendations Assessment, Development, and Evaluation (GRADE) format.

The American Thoracic Society and the Infectious Diseases Society of America have updated their guidelines on diagnosing and treating community-acquired pneumonia (CAP) in adults. Here are some of the changes from their 2007 recommendations, published in the American Journal of Respiratory and Critical Care Medicine:

### *Guidelines on Community-Acquired Pneumonia Updated*

The guideline makes recommendations in response to key decisions facing clinicians caring for patients with CAP, including diagnostic testing, site of care, selection of initial empiric antibiotic therapy and subsequent disease management. The guideline focuses on adults who are not immunocompromised.

### *ATS/IDSA Publishes Clinical Guideline on Community ...*

The newly published guidelines answer 16 core questions about the diagnosis and treatment of CAP in adults. The guidelines are more narrow in scope than previous versions, and focus primarily on the care of a patient with active pneumonia. Cultures have long held a prominent role in diagnosing infectious diseases.
