Data communication and terminal equipment 1.7. Data Representation Data representation is defined as the methods used to represent information in computers.

Online Library Data Communications And Networking By Behrouz A ~~(PDF) DATA COMMUNICATION & Forouzan 5th Edition Free NETWORKING — ResearchGate~~

A computer network is basically a set or group of a computer system and other related hardware devices which are interrelated

Online Library Data

Communications And

through different communication channels to implement proper communication procedures and related networking methodologies whereas data communication is basically a transmission process that

Online Library Data

Communications And

includes digital data transfers between two or more computers or similar devices and vice versa.

~~Computer Network vs Data
Communication | Top 7
Valuable ...~~

Online Library Data

Communications And

TCP/IP was designed to allow networks running on different protocols to have an intermediary protocol that would allow them to communicate. So as long as your network supported TCP/IP, you could

Online Library Data

Communications And

communicate with all of the

other networks running

TCP/IP. TCP/IP quickly

became the standard protocol

and allowed networks to

communicate with each other.

~~Chapter 5: Networking and~~

Page 35/50

Online Library Data Communications And ~~Communication~~ By Behrouz A Forouzan 5th Edition Free

The Internet Protocol (IP) is the principal communications protocol in the Internet protocol suite for relaying datagrams across network boundaries.

Online Library Data

Communications And

Its routing function enables internetworking, and essentially establishes the Internet.. IP has the task of delivering packets from the source host to the destination host solely based on the IP addresses in

Online Library Data Communications And Networking By Behrouz A Forouzan 5th Edition Free

the packet headers.
