Developing Early Communication, Language and Learning Skills at Home is full of tried-and-tested, practical activities for children developing their communication, language and learning skills including those with special educational needs and disabilities. This book provides parents, teachers and therapists with a range of playful and engaging activities to consolidate and develop children ' s language and communication skills at home and school. Organised into five areas, the resource includes motivating activities around the themes of outdoor activities, daily routines, messy play, games for turn-taking and games to encourage creativity and make sense of the world. Features include: • 50 activities, each with a list of equipment, instructions, top tips, key vocabulary and ideas for extending the activity next time • Symbol boards for each activity to support children ' s understanding and experiences • Photocopiable sheets for ease of use • Guidance on how to tailor activities to the interests and needs of the child to produce a personalised activity pack • An activity checklist to help you maximise your interactions with the child • An activity log to record children ' s responses and achievements With clear and easy-to-follow instructions, the activities are suitable for use with children who are non-verbal, still developing their early communication or children who are talking. This is an invaluable resource for teachers, teaching assistants or therapists to share relevant activities with parents, and can equally be used by parents as a stand-alone resource. Designed to support the transfer of learning from school to home, this book will empower anyone working with children with SEND to develop children ' s communication, language and learning through playful interactions.

Building 21st Century communication skills Students are expected to be innovators, creative thinkers, and problem solvers. But what if they can't communicate their ideas persuasively? Knowing how to share ideas is as crucial as the ideas themselves. Unfortunately, many students don ' t get explicit opportunities to hone this skill. Cultivating Communication in the Classroom will help educators design authentic learning experiences that allow students to practice their skills. Readers will find: Real world insights into how students will be expected to communicate in their future careers and education Strategies for teaching communication skills throughout the curriculum Communication Catchers for igniting ideas

Learning to communicate with other people is perhaps the most important learning children do. Children with social communication problems may have trouble picking up the crucial skills of interacting and communicating with their peers, which can have more serious implications later on in life. This resource will help teachers, teaching assistants and therapists to develop and improve the social skills of their younger pupils, provides sets of easily accessible, verbal and non-verbal games and activities to encourage social interaction; provides a clear rationale to the games to help the teacher or teaching assistant really get to grips with how and why these activities can help; provides a structured approach to pupils' social development for pupils in their early and primary years which has been tried, tested and proved to be effective; and includes assessment forms and monthly and daily planning sheets

In this volume, leading scholars from the fields of communication, educational psychology, and international education address what is known about the strategic role of interpersonal communication in the teaching/learning process. Instruction often involves spoken communication that carries information from teacher to learner, and in these instances the teacher's skillful and strategic use of language has a measurable impact on learning outcomes. Thus, the cumulative findings of instructional communication research are instrumental in maximizing the efficiency and effectiveness of both teaching and learning. Major sections of this volume include: Historical and Theoretical Foundations Instructor Characteristics and Behaviors Student Characteristics and Outcomes Pedagogy and Classroom Management Teaching and Learning Communication Across the Life-span This handbook serves researchers, professors, and graduate students by surveying the collective findings of research and experience concerning the intentional activity of teaching and learning.

Communication at the Heart of the School introduces a simple, practical approach for communication development in schools, with a specific focus on children with Severe Learning Difficulties (SLD) or Profound and Multiple Learning Difficulties (PMLD). The tried-and-tested framework offers a shared approach to communication development between teachers and speech and language therapists, moving through three crucial stages: the communication assessment, the communication pathway and the classroom environment. It provides a clear structure for the role of each professional and explains how they contribute to every aspect of the child ' s communication development. Key features include: A communication pathway that follows a yearly cycle of assessment, plan and intervention, identifying specific communication needs and offering advice on creating communication-friendly environments A focus on the shared vision of teachers and speech and language therapists, creating a united and team-led approach to communication development, ensuring that both therapists and teachers feel supported in tackling complex communication challenges effectively Photocopiable and downloadable assessment forms for accurately measuring outcomes in a time-friendly and accessible way Underpinned by the Communication and Cognitive Framework currently used by teachers, speech and language therapists and families, this resource offers a complete package of communication support. It is an essential tool for speech and language therapists and teachers supporting children communicating at early developmental levels.

With the Common Core State Standards emphasizing listening and speaking across the curriculum, these long-neglected language arts are regaining a place in schools. For teachers, this means reexamining practices and rethinking expectations. How much do we know about teaching listening and speaking as the complex communication skills they are? How do we teach students to discuss appropriately, integrate and understand the mountains of information they receive, and express themselves clearly and effectively? In this lively and practical book, 20-year teaching veteran Erik Palmer presents an approach aligned to the six Common Core anchor standards for speaking and listening but focused on preparing students for 21st century communication inside and beyond the classroom. Here, you'll get concrete guidance for teaching and assessing " Collaborative discussion " Listening and media literacy " Questioning and reasoning " Speech presentation " Effective multimedia use " Adapting speech to different content and tasks With due respect to reading and writing, we do most of our communicating—in the classroom and in life—through listening and speaking. Filled with examples and specific activities targeted to variety of subjects and grade levels, this book is an essential resource for all teachers interested in helping students acquire core skills that cross the content areas and support long-term success.
