Diccionario de símbolos [A Dictionary of Symbols] (1958) Del no mundo : Aforismos [From No World: Aphorisms] (1969) 88 sueños; Los sentimientos imaginarios y otros artículos [88 Dreams: Imaginary Feelings and Other Articles] (1988) Confidencias literarias [Literary Secrets] (1996) References

A classic encyclopedia of symbols by Catalan polymath Joan Cirlot that illuminates the symbolic underpinnings of myth, modern psychology, literature, and art. Juan Eduardo Cirlot's A Dictionary of Symbols is a feat of scholarship, an act of the imagination, and a tool for contemplation, as well as a work of literature, a reference book that is as indispensable as it is brilliant and learned. Cirlot was a composer, a poet, an art critic, and a champion of modern art whose interest in surrealism helped to bring him to the study of symbolism. Carl Jung, Mircea Eliade, René Guénon, Erich Fromm, and Gaston Bachelard also helped to shape his thinking in a book that explores the space between the world at large and the world within, where, as Cirlot sees it, nothing is meaningless, everything is significant, and everything is in some way related to something else. Running from "abandonment" to "zone" by way of "flute" and "whip," spanning the cultures of the world, and including a wealth of visual images to further bring the reality of the symbol home, A Dictionary of Symbols, here published for the first time in English in its original, significantly enlarged form, is a luminous and illuminating investigation of the works of eternity in time.

Desde los egipcios, la simbología ha sido la gran ciencia de la antigüedad. En Oriente ha perdurado sin interrupción hasta ya entrado el siglo XX y en Occidente inspiró todo el arte medieval y, en gran

medida, el renacentista y barroco, hasta que el descubrimiento del «Inconsciente» volvió a recuperar los símbolos en ámbitos y maneras muy distintos. Este Diccionario de símbolos es la versión última y definitiva de la obra en prosa más importante del poeta y crítico de arte Juan Eduardo Cirlot. Publicado por primera vez en 1958 con el título Diccionario de símbolos tradicionales, fue traducido al inglés en 1962. Cirlot continuó elaborando nuevas voces y artículos que introdujo en la segunda edición castellana de 1969 y en la segunda edición inglesa y americana de 1971. En esta edición se han incluido nuevas voces, hasta el momento sólo publicadas en inglés, así como el artículo «Simbolismo fonético», último ámbito del estudio simbólico de Cirlot, recuperado de su publicación en prensa. En el epílogo, Victoria Cirlot sitúa en la vida de su padre la construcción de esta obra siempre en expansión y la relaciona con la poesía y la crítica de arte. También muestra el interés de Cirlot por la simbología a partir de los años cincuenta, cuando conoce en Barcelona al musicólogo y antropólogo Marius Schneider, aportando documentos inéditos, como por ejemplo la carta a André Breton en la que se relata el sueño aludido en la voz «Cicatrices».

The lights dim and soon the theatre becomes dark. The audience conversations end with a few softly dissipating whispers, and the movie begins. Nina Sayers, a young ballerina, dances the prologue to Tchaikovsky's Swan Lake, a ballet expressing a story drawn from Russian folk tales about a princess who has been turned into a White Swan and can only be turned back if a man swears eternal fidelity to her. However, this is not that ballet. This is the beginning of Black Swan, a controversial movie employing symbolism in a complex interweaving of dance and film to reveal the struggles and paradoxes of everything from a female rite-of-passage to questions about where artistic expression should demand self-sacrifice and whether such sacrifice is worth the price. The dance floor is the stage of life, the place where physical actions take on the symbolic meanings of mythology and express the deepest archetypes of the human mind. This book explores how dance gives shape to those human needs and how it reflects, and even creates, the maps of meaning and value that structure our lives. Though the volume looks at all the forms of dance, it focuses on three main categories in particular: religious, social, and artistic. Since the American Musical and subsequent Musical Videos have both reflected and influenced our current world, they receive the most space—such acclaimed performers as Fred Astaire, Gene Kelly, Judy Garland, Ricky Nelson, Elvis Presley and Michael Jackson, such important composers and lyricists as Gershwin, Rodgers-and-Hammerstein, Porter, Berlin, Webber, Bernstein, the Beatles, and the Who, and such choreographers as Graham, Balanchine, Robbins and Fosse are examined in particular detail.

Compiled by more than 90 experts, this two-volume dictionary includes representatives from all major peninsular literatures: Catalan, Galician, Portuguese and Spanish. The rich history of the literary achievements in the Iberian Peninsula—from historical to dramatic—can now be enjoyed by both European and American researchers. Spanning centuries, all literary titles have been followed in the text with a published translation or a literal rendering of the original. Virtually all entries have been composed by noted scholars and are complemented wherever possible by bibliographies of primary texts and selected critical studies as well as existing English translations of primary texts.
