Questions :-1. What is IC
ENGINE? The internal
combustion engine converts
chemical energy into useful
mechanical energy by burning
fuel. Chemical energy is
released when the fuel-air
mixture is ignited by the
spark in the combustion
chamber.

Defending a doctoral thesis and facing viva questions is a very critical part of every research scholar.

After the submission of your thesis, you will be asked to defend your research work in the "final viva voce".

Defending your master thesis in front of the domain experts, co-scholars, and students is a quite interesting experience.
