Safety-Critical Systems discusses the development of safety-critical systems under the following standards: IEC 61508; ISO 26262; EN 50128; and IEC 62304.

Embedded Software Development for Safety-Critical Systems ...

Unfortunately, because embedded

Read Online Embedded Software Development For Safety Critical Systems

software is generally extremely complex, it is difficult to mitigate all risks. The safety standard for the automotive industry, ISO 26262, defines the way to develop software to mitigate risks and produce safer software. Functional safety, as defined in ISO 26262, is a method of setting safety goals for each electrical or
