LiFT aims to increase diversity in open source technology by providing access to online and in-person training and certification exams for underserved demographics at no cost to the recipient.

This textbook provides a comprehensive account of the most important new Civil Procedure Rules, Practice Directions and Pre-action Protocols, which make up our newly reformed civil procedure system. The substance of the rules are considered in detail and their effect explained to make it clear how they operate in practice. Case law is examined to demonstrate how the court applies the rules in practice. The Woolf Reforms are used to explain the rationale of the new system.; The book provides not only a clear guide to the meaning of the new rules but also a vital insight into the new culture, typified by case management, proportionality and the overriding objective, which has fundamentally reformed the principles on which our civil procedure system is based. A critique is given of the merits of the reforms and the likelihood that they will achieve their objectives.

This analytical study examines the function of internal auditing from the viewpoint of its role within organizations and within the economics of societies and governments. Swanson and Marsh place internal auditing in the context of the scientific conceptual framework of Living Systems Theory, and thus provide a basis for a systematic theoretical framework and a theory based on observable, measurable entities. They identify the advantages of using this system to advance the knowledge and understanding of organizations, and also propose a higher level of internal audit functions that can advance modern societies.

This title gives private or public sector executives, managers, and financial analysts without a strong background in accounting the tools they need to participate in discussions and decisions on the appropriateness or application of International Financial Reporting Standards.

Intended to satisfy the specific requirements of learners and reduce the workload of educators, this study provides a complete overview of today's general accounting principles. Comprehensive and up-to-date, it encourages independent study through an included set of questions and solutions. From the disclosure requirements of company financial statements to employee benefits and interim financial reporting, this survey guarantees the most current information and a clear understanding of the subject.

Conveyancing is designed for law students and new lawyers studying applied land law on the Irish Professional Practice Course. As the fourth edition is published at a time when major reform and modernisation of land law and conveyancing is proposed, the text has been fully revised and updated to include reference to proposed reforms, recently published bills and new legislation enacted. This includes new coverage on the Land Act 2005, the Title Act 2006 and the fundamental changes proposed by the Land and Conveyancing Law Reform Bill 2006. In two volumes, the fourth edition also features updated sample documentation and precedents to enable students to consider the procedural aspects of conveyancing. It includes complete coverage of all the essential knowledge needed when practicing conveyancing, including the legal concept of property, and the protection, acquisition and movement of proprietary interests. The principles of conveyancing practice are clearly explained, ensuring that this is an essential text for apprentices and practitioners in this field.

Most students, regardless of their major, need to understand information systems and technologies and their importance to the success of business organizations. While many of today's students have lived with technology their whole lives, they do not see the connection between what they use every day and what they need to understand to be successful in the business world. Introduction to Business Information Systems, Third Canadian Edition by James Norrie, Michelle Nanjad and Mark Huber focuses on IT as a source of business value and outlines the innovative technologies, as well as the innovative ways to use technology, that help businesses excel. The goal of this book is to teach students that the effective integration of IS with knowledge can drive the creation of significant business value. Introduction to Business Information Systems, Third Canadian Edition is written for both the IT and non-IT major. It is written in a friendly, accessible style that will draw students in and engage them with the content. Expanded coverage of highly technical concepts is included in the Technology Core box found in each chapter as well as the Tech Guides.

Financial Accounting and Reporting is the most up to date text on the market. Now fully updated in its fourteenth edition, it includes extensive coverage of International Accounting Standards (IAS) and International Financial Reporting Standards (IFRS). This market-leading text offers students a clear, well-structured and comprehensive treatment of the subject. Supported by illustrations and exercises, the book provides a strong balance of theoretical and conceptual coverage. Students using this book will gain the knowledge and skills to help them apply current standards, and critically appraise the underlying concepts and financial reporting methods.
