prepared to be physically active and healthy throughout their adult lives. This evidence-based and standards-based program follows a pedagogically sound scope and sequence to enhance student learning and progress. What's new in the Sixth Edition New to this book are three chapters (Strategies for Active Living, The Science of Active Living, and Lifelong Activity) that will help students transition from being active in school to sustaining the skills and motivation to remain active and fit for their lifetime. These chapters reinforce the Stairway to Lifetime Fitness concept, created by author Chuck Corbin, to serve as a guide for physical education standards nationwide. Some specifics include the following:

- The New Physical Activity Pyramid for teens
- Photos and art to illustrate concepts and engage students
- Video that illustrates self-assessments and exercises
- Information about the sciences on which physical education and fitness education are based
- Information on scientific analysis of human movement using biomechanical principles
- Information on simplified scientific method for use in decision making
- Web icons and content
- Technology features encouraging application as well as understanding
- Science in Action feature that provides in-depth coverage of fitness, health, and wellness innovations
- Exercise photos with art illustrating the muscles used
- Taking Action feature that applies concepts and principles in physical activity
- Planning activities for all activities in the Physical Activity Pyramid

In addition, the authors went through an exhaustive process in revising and updating all the chapters to reflect current research and the new national physical education standards and fitness education standards. The entire book has been reorganized and completely rewritten. Award-Winning Text, Evidence-Based Approach The evidence-based Fitness for Life text earned a Texty Award for excellence from the Text and Academic Authors Association. It is based on scientific evidence and meets

national and state physical education standards and national health and physical education guidelines. Materials have been field tested and used throughout the United States and the world. This comprehensive, interactive new resource will help students in the following ways:

- Meet the national, state, and local grade-level standards and outcomes developed for K-12 physical education by SHAPE America based on the new standards outlined in Healthy People 2020 and published in 2014.
- Learn the values and benefits of lifelong physical activity through the HELP philosophy, which specifies the goal of promoting health for everyone with an emphasis on lifetime activity designed to meet personal needs.
- Become informed consumers on matters related to lifelong physical activity and fitness.
- Learn self-management skills that lead to adopting healthy lifestyles.
- Recognize and overcome the barriers to reaching activity and fitness goals.
- Use technology to promote healthy living.
- Separate fitness facts from fiction.
- Take personal responsibility for program planning and setting individualized goals.

This best-selling text, written by internationally renowned authors and educators Charles B. Corbin and Guy C. Le Masurier and contributing author and educator Karen McConnell, is suited for use in a general physical education or personal fitness class. It will help students meet national and state physical education standards—not only those focused on health-related fitness and physical activity but also those related to movement skills and concepts, diversity, and social responsibility. Fitness for Life can be modified to fit any schedule, including block and accelerated block. It can be taught as semester-long, yearlong, or multiyear courses. The HELP philosophy on which the book is based (health for everyone with an emphasis on lifetime activity designed to meet personal needs) teaches the value of lifelong physical activity as well as the idea that physical activity can and should be fun. The authors use the Stairway to

national, state, and local physical education standards and helps students achieve national health goals outlined in Healthy People 2010. -Fitness for Life is based on the HELP philosophy, which specifies the goal of promoting health for everyone with an emphasis on lifetime activity designed to meet personal needs. -Fitness for Life helps students learn the value and benefits of lifelong physical activity. Just as important, they learn that physical activity can and should be fun—and thus they are more likely to become and remain active throughout their lives. -Students learn how to create an activity and fitness plan, set individual goals, assess their status and progress, manage their time and responsibilities, and overcome barriers to regular physical activity. They learn to use technology to benefit their fitness rather than detract from it. And they experience the various components of health-related fitness, activity, and wellness through participation in the many labs and activities that are a crucial part of the Fitness for Life program. -Fitness for Life enables students to have success, build confidence in their ability to lead an active lifestyle, and take control of their own health. And research has shown that the program is effective in promoting physically active behavior after students finish school. -Fitness for Life complements the total learning process, contributing learning experiences in science, math, and language arts, including extensive vocabulary enhancement. How Fitness for Life Benefits Teachers -Teachers can present this course knowing that it is consistent with national and state standards. -Fitness for Life helps students understand lifelong fitness concepts and learn the keys to adopting and maintaining healthy behavior throughout their lives. -The program is easily adaptable to any schedule and includes block plans of all types. -The organization of the text and the comprehensive ancillaries make teaching this course as simple as possible, with a minimum of preparation time—even for those

with no experience in teaching this type of course. -Workbooks and materials completed by students in the online study guide can be used in creating student portfolios that provide evidence of students' accomplishment of national, state, and local outcomes and standards. Compatibility With FITNESSGRAM®/ACTIVITYGRAM® and Physical Best Author Chuck Corbin has been a member of the FITNESSGRAM/ACTIVITYGRAM Scientific Advisory Board since its inception. The FITNESSGRAM/ACTIVITYGRAM assessments embedded in the Fitness for Life self-assessment program—as well as the book's approach to teaching health-related fitness and physical activity—are consistent with the stated philosophy of the FITNESSGRAM/ACTIVITYGRAM Scientific Advisory Board. Fitness for Life is also fully compatible with Physical Best resources; in fact, the Physical Best program offers teacher training for Fitness for Life course instructors. All three programs are based on the HELP philosophy, which promotes health for everyone with a focus on lifetime activity of a personal nature. Dr. Corbin is recognized nationally and internationally as the leader in teaching health-related fitness and activity to middle and high school students. He wrote the first high school textbook on this subject, which has often been imitated but never equaled. Dr. Corbin has received numerous national awards in physical education and has authored, coauthored, or edited more than 70 books and videos. Fitness for Life (winner of the Texty Award of the Text and Academic Authors Association), Concepts of Physical Fitness (winner of the McGuffey Award), and Concepts of Fitness and Wellness are the most widely adopted high school and college texts in the area of fitness and wellness. Two of Dr. Corbin's video programs have earned Telly Awards for Excellence for educational videos. He is first author of the national physical activity standards for children, published by COPEC and NASPE. Adobe Digital

students are engaged in the process of personal program planning for a variety of health behaviours including physical activity, fitness, and health eating. This evidence-based and standards-based program follows a pedagogically sound scope and sequence to enhance student learning and progress and presents the science of healthy living at age-appropriate levels. Research clearly demonstrates that active and healthy adults use a variety of self-management skills to maintain their positive behaviours. Fitness for Life Canada helps students develop numerous self-management skills—such as self-assessment, self-monitoring, goal setting, finding social support, overcoming barriers, and managing time—to prepare them to independently engage in healthy lifestyles. Students also learn to engage in community physical activity opportunities, with national sport and health organizations, and with technology that supports healthy lifestyles. Through Fitness for Life Canada, students explore these aspects:

- The foundations of active and healthy living, including adopting healthy lifestyles and self-management skills and setting goals and planning personal programs
- Learning the basics for lifelong activity and health, including engaging in smart and safe physical activity, knowing how much activity is enough, and understanding healthy eating
- Beginning activity and building fitness, including participating in moderate- and vigorous-intensity physical activity and developing cardiorespiratory endurance
- Building muscle fitness and flexibility, including understanding muscle fitness applications and ergogenic aids
- Maintaining a healthy lifestyle, including achieving a healthy body composition, choosing nutritious foods, and making good consumer choices
- Creating positive and healthy experiences, including managing stress, developing lifelong leadership skills, understanding reproductive and sexual wellness, and making wise choices regarding alcohol, drugs, and

Fitness for Life Canada develops higher-order physical literacy knowledge and skills that help students become active and healthy adults. Fitness for Life Canada focuses on developing students' knowledge of health and health-related fitness concepts, training principles, and personal physical activity and fitness program planning. That knowledge is combined with numerous self-management skills that are critical for maintaining physical activity, healthy eating, and general health behaviours. In short, Fitness for Life Canada enhances engagement, learning, and assessment while paving the way to a healthy lifestyle throughout the life span.

Physical fitness affects our ability to function and be active. At poor levels, it is associated with such health outcomes as diabetes and cardiovascular disease. Physical fitness testing in American youth was established on a large scale in the 1950s with an early focus on performance-related fitness that gradually gave way to an emphasis on health-related fitness. Using appropriately selected measures to collect fitness data in youth will advance our understanding of how fitness among youth translates into better health. In *Fitness Measures and Health Outcomes in Youth*, the IOM assesses the relationship between youth fitness test items and health outcomes, recommends the best fitness test items, provides guidance for interpreting fitness scores, and provides an agenda for needed research. The report concludes

that selected cardiorespiratory endurance, musculoskeletal fitness, and body composition measures should be in fitness surveys and in schools. Collecting fitness data nationally and in schools helps with setting and achieving fitness goals and priorities for public health at an individual and national level.

Women are not small men. Stop eating and training like one. Because most nutrition products and training plans are designed for men, it's no wonder that so many female athletes struggle to reach their full potential. ROAR is a comprehensive, physiology-based nutrition and training guide specifically designed for active women. This book teaches you everything you need to know to adapt your nutrition, hydration, and training to your unique physiology so you can work with, rather than against, your female physiology. Exercise physiologist and nutrition scientist Stacy T. Sims, PhD, shows you how to be your own biohacker to achieve optimum athletic performance. Complete with goal-specific meal plans and nutrient-packed recipes to optimize body composition, ROAR contains personalized nutrition advice for all stages of training and recovery. Customizable meal plans and strengthening exercises come together in a comprehensive plan to build a rock-solid fitness foundation as you build lean muscle where you need it most, strengthen bone, and boost power and endurance. Because women's physiology changes over time, entire chapters are devoted to staying strong and active through pregnancy and menopause. No matter what your sport is—running, cycling, field sports, triathlons—this book will empower you with the nutrition and fitness knowledge you need to be
