This book is the Instructor Guide to Kindergarten Math With Confidence: Student Workbook

English Unlimited is a six-level (A1 to C1) goals-based course for adults. Centred on purposeful, real-life objectives, it prepares learners to use English independently for global communication. As well as clear teaching notes, the updated Pre-intermediate A and B Teacher's Pack (Teacher's Book with DVD-ROM) offers lots of extra ideas and activities to suit different classroom situations and teaching styles. The DVD-ROM provides a range of extra printable activities, a comprehensive testing and assessment program, extra literacy and handwriting activities for non-Roman alphabet users and clear mapping of the syllabus against the CEFR 'can do' statements. It also includes the videos from the Self-study Pack DVD-ROM for classroom use.

How ready are you for retirement? I don't just mean financially ready, but have you thought through the following? -Where would you like to be living when you start to become frail? -How do you plan to turn your carefully saved pension into a sustainable income? -If your pension income is too little to maintain your lifestyle, do you have alternatives? -How will you organize your life to have structure and purpose once the honeymoon phase has worn off? -Do you have plans to make sure you remain healthy as long as possible? This book will get you thinking about these and more. With plenty of ideas and suggestions, as well as worksheets, you will be encouraged to think through the major decisions that will enable you to make the most of your retirement. If you think it is time to contemplate no longer living at work but rather working at living, then this book is for you!

Life skills are essentially individual abilities that help in promoting mental well-being and competence in people to deal with the various situations in life. This book presents various aspects of life skills, including communication, self-analysis, self-development and study habits. These are crucial elements in determining one's personal and professional growth. Developed in accordance with the new syllabus of the West Bengal Council of Technical Education and written in an interactive style, this course book will help the students inculcate the various life skills and enhance their acceptability and growth in this highly competitive world. Key Features • Opening Case Study in every chapter, along with case-analysis-based class discussion, to encourage students to apply their analytical skills • Assesses Your Understanding to test understanding and assimilation of the information shared in the passages • Story Time with short, interesting stories that allow young learners to develop critical thinking skills and draw some moral lessons from them • In-class Team Activity in the form of role plays, debates, discussion, etc • Experiential Learning to gauge the students' understanding of the concepts and to measure how much of the learning they are able to apply in real life

'Showing how critical thinking and local democracy can be a spur to very real educational development within schools that are facing severe challenges, this book provides us with one very valuable contemporary resource of hope.' Ian Menter, Professor of Teacher Education, University of Oxford, UK Teachers and Academic Partners in Urban Schools identifies and addresses a major problem for practitioners - teachers, student teachers and teacher educators - working in urban schools burdened by highly restrictive teaching methods and pressures to meet unrealistic benchmarks set by government. In this book, Lori Beckett investigates how to negotiate these tensions and challenges and offers an account of how to elevate practitioners' professional voice on quality teaching along more democratic lines. The book addresses key issues for teachers in urban schools, such as: fractures in teachers' professional communities; impacts of imposed marketizing policies and forced performative practices on schools; the complexities of teaching and teachers' concerns about practice, as well as teaching practitioners' perception of educational/schools policy. Both academic and teacher partners contribute to the work, showcasing the ways they have engaged with each other in joint work and with local government. Through this, the book supports a professional and politicized dialogue about teaching and teacher education, offering a meaningful account of how to fashion a form of educative schooling for students and families with complex needs. Written by a dynamic and experienced author, this book brings Beckett's experience to bear on a controversial and complex area - addressing the general trend towards increased regulatory policy in education. It is an essential read for anyone interested in a rich analysis of how practitioners can work to reassert their professional voice and regain control of schools and teacher education, and will also appeal to those interested in the larger project of restoring school democracy.
