We present a conceptual framework to separate and relate the concepts of strategy and business model: a business model, we argue, is a reflection of the firm's realized strategy. We find that in simple competitive situations there is a one-to-one mapping between strategy and business model, which makes it difficult to separate the two notions.

From Strategy to Business Models and onto Tactics

A strategy is a contingent plan of action as to what business model to use. The firm's available actions for strategy are choices (of policies, assets or governance structures) that constitute the raw material of business models.

From Strategy to Business Models and onto Tactics

"Business model" refers to the logic of the firm, the way it operates, and how it creates value for its stakeholders. "Strategy" refers to the choice of business model through which the firm will compete in the marketplace. "Tactics" refers to the residual choices open to a firm by virtue of the business model that it employs.

From Strategy to Business Models and to Tactics - Harvard

The notion of business model has been used by strategy scholars to refer to "the logic of the firm, the way it operates and how it creates value for its stakeholders." On the surface, this notion appears to be similar to that of strategy. We present a conceptual framework to separate and relate business model and strategy.
