Patrice Banks is an engineer turned mechanic who in 2016 founded the Girls Auto Clinic, a Pennsylvania-based repair center staffed by and focusing on women. In 2017, she published Girls Auto Clinic Glove Box Guide, which covers the basics of auto repairs, maintenance, and emergencies. Banks was previously a material science engineer at DuPont.

"Maintain your ride, think like a mechanic, get down and dirty under the hood"--from cover.

As featured on Fresh Air with Terry Gross A do-it-yourself guide to auto maintenance, roadside emergencies, and the real scoop on how women can get honest car service at the garage, from engineer turned auto mechanic and award-winning entrepreneur Patrice Banks. Do you feel lost when explaining your car problems to a mechanic? Do you panic when something goes wrong with your ride? Have you felt like you were being overcharged or pressured into unnecessary add-ons at the auto shop? Fear no more: The Girls Auto Clinic Glove Box Guide has got your back. So many women feel powerless, nervous, or embarrassed when taking our cars in for a repair, and yet we outnumber men both as drivers and as customers at auto repair shops The time has come for us to grab the wheel and finally take control of our cars. Filled with easy-to-follow illustrations and instructions, great tips, and lifesaving rules of thumb, The Girls Auto Clinic Glove Box Guide will help take away the confusion and mystery surrounding cars, teach women what they need to know about how their cars work, and what they need to do to keep them running smoothly. Patrice Banks was once like most of us: a self-professed " auto airhead " who was clueless about car maintenance, yet convinced that mechanics were taking advantage of her. Now she ' s an auto pro devoted to empowering women to learn basic car repairs and knowing what to do in an emergency. So whether you get a flat tire when you ' re stranded in the middle of nowhere, your car overheats, or a mysterious dashboard light suddenly starts blinking, help is just a reach-in-the-glove-box away.

Despite the many advances women have made since the internal combustion engine was invented, there is still one widely held belief that won ' t seem to go away: that when it comes to cars, women should just leave it to the men. In Essential Car Care for Women, ESPN NASCAR pit reporter Jamie Little and Discovery Channel " Turbo Expert " Danielle McCormick team up to dispel this myth once and for all—and to offer the indispensable, hard-won advice women need to buy, sell, and care for their cars with confidence. With this handy guide, women will learn how to save themselves money by performing basic—but essential—maintenance tasks on their own. Little and McCormick explain what an alternator, regulator, distributor, and timing belt are; how to change a tire, recharge a flat battery, check the oil, and assess tire pressure; what to do when a car breaks down or when an accident occurs; how to buy a car without being taken advantage of; and more. Straightforward and easy to follow—and including simple step-by-step diagrams and pictures to help along the way—Essential Car Care for Women is the ultimate handbook to everything a woman should know about her set of wheels.

A guide to automobile ownership and maintenance discusses what kind of car to buy, safety, inspection, fuel efficiency, avoiding theft, emergency supplies, basic tools, important car parts, and how to deal with mechanics.

As today's cars continue to become more complicated and complex, the cost to repair them has continued to climb. However, with some basic knowledge and a little know-how, many of the most expensive repairs can be avoided by simple, regular maintenance, or relatively inexpensive repairs that can be done with a few tools and step-by-step instructions. Car expert, Dave Stribling, has seen every repair in the book, and in Idiot's Guides: Auto Repair and Maintenance, he arms readers with the knowledge they'll need to troubleshoot and diagnose common problems and make simple repairs that are universal to most makes and models. Dozens of step-by-step, full-color photos and illustrations make DIY car repairs and maintenance so much easier. When the repair calls for an expert the time comes to take the car to the shop, Dave arms readers with the knowledge they'll need to make the right choices, to avoid unnecessary repairs, and to minimize the possibility of getting ripped off.

Girls Garage is the only book you'll ever need for a lifetime of tools and building. Not sure which screws to buy? Need to fix a running toilet? With Girls Garage, you'll have the expertise to tackle these problems with your own hands. Or maybe you want to get creative and build something totally new. A birdhouse? A bookshelf? Girls Garage has you covered. Packed with illustrations that will build confidence for your next hardware store run, practical advice on everything from quick fixes to safety tips, and inspiring stories from real-world builder girls and women, this eye-catching volume makes the technical accessible. This is the guide every girl needs to take her life into her own hands. Girls, get in touch with your inner badass, and get building • Informative, inspiring, and designed for everyday use, this is the ultimate book of book of building and woodcraft for girls. • A true confidence builder for girls interested in STEM, woodworking, and home improvement. • Along with her design agency and Girl's Garage, Emily Pilloton has been featured on television shows and the documentary film If You Build It. Girls Garage will be both a trusted household resource and a wellspring of inspiration and encouragement in the vein of Women in Science and Headstrong: 52 Women Who Changed Science and the World. • Nonfiction books for girls age 14 and up • Woodcraft, home repair, kids building projects • Inspiring Kids DIY for teens Emily Pilloton is a designer, builder, educator, and founder of the nonprofit design agency Project H Design and Girls Garage. Her ideas have made their way to the TED stage, the Colbert Report, and the full-length documentary If You Build It. She is currently a lecturer in the College of Environmental Design at the University of California, Berkeley. She lives in the San Francisco Bay Area.

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

Provides information on a car's systems, preventative maintenance, making a preliminary diagnosis of a problm, making simple repairs, how to talk to a mechanic, buying and selling a car, and a car's impact on the environment.

Celebrate the can-do attitude of fierce girls who know how to wield a hammer, fire up a saw, and build everything from a bookshelf to a playhouse. Featuring project photographs, this guide will inspire you to pick up your power tools and make something great. Carpenter Katie Hughes frequently found that she was the only woman on construction worksites. To change that, she began teaching classes to girls ages 8-14, showing them how to drill, saw, and weld. Her classes quickly became sold out summer camps and she founded her own non-profit, Girls Build. Girls Who Build features candid and arresting photographs of forty-five girls showing off their power tools and can-do attitudes. Accompanying each girl is a profile interview where she speaks to her inspirations and favorite builds, plus tips for others starting out. Also included are building skills, techniques, and safety tips to teach girls -- and older beginners -- how to handle hammers, drills, and saws plus thirteen do-it-yourself building projects (from the featured girls themselves) such as picture frames, nightstands, playhouses, and more.
