build a professional website without the need of using any programming. The website builder available at HostGator, offers you a wider range of modern templates that are suitable for different categories.

How to Make a Professional HTML / CSS Website?
Let ' s look at some of

Page 18/33

Programming

Download File PDF Html

the basic features of HTML. HTML is made up of tags. Tags are special text that you use to mark up, or distinguish, parts of your web page. Hence the hypertext “ markup ” language. These tags tell the browser to display whatever is inside the tag in a specific way.

Here ’ s one example of a tag in action:
