Investments: Analysis and Management: Jones, Jensen ...

The revised and updated fourteenth Australia and New Zealand edition of Investments: Analysis and Management explains the essentials of investing and supports good investment decisions. More than a simple introduction to the subject, this comprehensive textbook prepares students to handle real-world investment problems and controversies in a clear and accessible manner. Emphasizing readability, Authors Charles Jones and Gerald Jensen minimize complex formulas and simplify difficult material--enabling students of all levels and backgrounds to follow the entire discussion and delve further into the subject. Ideally suited for beginning courses in investments, this textbook is designed as a practical guide to help students gain foundational knowledge of investing and develop the analytic skills necessary for deciphering investment issues. Carefully organized chapters guide students through fundamental investing concepts, portfolio and capital market theory, common stock analysis and valuation, fixed-income and derivative securities, the specifics of security analysis and portfolio management, and more. A broad range of pedagogical tools--including bulleted summaries, numbered examples, spreadsheet exercises, computational problems, and an extensive set of chapter review questions--strengthens student comprehension and retention.

In today ' s economy, it ' s critical for investors to have a strong understanding of the strategies needed to make the best decisions. Jones arms them with the most up-to-date information in the field while offering a proper balance between investment opportunities, techniques and analytics. He includes new discussions on the rapid rise and interest in exchange-traded funds, the new NYSE-Euronext market, the merger of the NYSE and Amex, and more. Expanded coverage is also presented in behavioral finance and the bond markets. In addition, investors will benefit from the updated problems and questions that really make them think of the most effective moves before acting.

Revised edition of the author's Investments, 2013.

The new Tenth Edition of this bestselling book teaches readers not only how to identify successful investment opportunities, but how to anticipate and deal with investment problems and controversies as well. Jones carefully and gradually develops key concepts, while covering all the necessary background material. Only essential formulas are included. It's one of the most readable, comprehensible investments titles available! * Includes added ethics coverage of the Sarbanes-Oxley Legislation. * Contains increased discussion of globalization issues. * Details the variety of securities available, the markets in which they are traded, mechanics of securities training, and insight into the important concept of risk and return.

In an every-changing financial market, Charles Jones and Gerald Jensens' Investments remains one of the most readable and comprehensive investments texts. Students can count on the new 13th Edition for clarity, currency, and balance. An effective organizational structure and essentials approach, important analytical methods, and finance concepts are presented at a level that individuals of all investments backgrounds can master.

Investments by Cleary and Jones presents a balanced approach to the field of investments. The text provides all the necessary theoretical coverage needed to complete the course while providing students with a strong sense of what actually happens ?on the street?. Students do not get lost in unnecessary and long theoretical discussions, and are easily able to see how concepts are used in the investments world. Investments is highly regarded as being student-friendly, accessible, and focused on the real-world of investments, and this continues to be reflected in the new third edition, which has been completely revised and updated to reflect the latest changes in the field of investments.

This bestseller teaches readers not only how to identify successful investment opportunities, but how to anticipate and deal with investment problems and controversies. Jones carefully and gradually develops key concepts, while covering all the necessary background material. The book also helps the reader learn how to access and evaluate investment information and analyze investment opportunities, leading to good decisions when investing. · Understanding Investments · Investment Alternatives · Indirect Investing · Securities Markets · How Securities Are Traded · The Returns And Risks From Investing · Portfolio Theory · Portfolio Selection · Asset Pricing Models · Common Stock Valuation · Common Stocks: Analysis And Strategy · Market Efficiency · Economy/Market Analysis · Sector/Industry Analysis · Company Analysis · Technical Analysis · Bond Yields And Prices · Bonds: Analysis And Strategy · Options · Futures · Portfolio Management · Evaluation Of Investment Performance

The Investment calculator is a self-contained, easy-to-use software package that eliminates the drudgery of the more tedious calculations required to work some investment problems.
