We know what you're thinking. You've heard about AppleScript. You've heard that it can do amazing things. You've heard that it can automate away the tiring, redundant, repetitive tasks you do with the computer. All true. But you're not sure about what's involved with using it. Is it difficult? Is it programming? After all, you're just a better-than average computer user. You know what you know, and your expertise serves you pretty well. But recently you've reached the point of asking yourself "Is there a better way?" The answer is "Yes." And relax, you just got lucky. This book is for you. If you've never written a single line of computer code-this book is for you. If the most technical thing you do on the computer is calculate a column in Excel-this book is for you. If you're tired of doing the same thing over and over-this book is for you. It's about being motivated to explore, understand, and take advantage of the tools you already own. AppleScript is free-the only price for its use is your desire to finally sit down and take a few moments to absorb and activate its magic. This book starts at square one and walks you through the process of understanding and writing AppleScript-step by step, one concept at a time-until you find yourself suddenly creating powerful and useful automated solutions. And the lessons in this book are based on a decade of experience teaching hands-on classes to folks just like you. You can do this. You can become Master of your Computer Universe! Still don't believe us? Open the first chapter and start reading. You'll see.

This visually magnificent book unveils the alluring world of uncommon botanicals, including a prickly cactus that played a storied role in the founding of an ancient city, a tiny pink mushroom that glows green in the dark, and a magnificent blue cactus with rows of golden spines. Celebrated paper designer Kate Alarcón reveals the rich histories and unique characteristics behind 30 remarkable plants alongside instructions for crafting stunning paper versions of each one. These eye-catching creations make perfect wedding centerpieces, beautiful arrangements (that never wilt!) to brighten a home, and cheerful gifts for any occasion. Brimming with fascinating botanical trivia, vivid photography, and essential design techniques, this is a breathtaking resource for flower lovers, crafters, and anyone fascinated by the mysteries of the natural world.
