Galahad is the only knight in the Arthurian legends who cannot be said to decline in any way, because he is taken up to heaven and that's the end of him. Epic degeneration applies to King Arthur as well. I think you could well say that in the chronicle tradition, he is the great conquering king.

Black Knights began to appear in history during the Middle Ages. Since the 13th century, a series of legends mentioning the mysterious Black Knights emerged. Although the Black Knights were said to have carried out good deeds and fought to protect cities from unjust rulers and other threats, texts referring to these legends were censored and banned by the Church during the medieval period.

Looks at the origins of knights and chivalry, describes the everyday life of knights, presents information on knights throughout history, and covers the cultural legacy of knights.

The word 'knight' conjures up images of gallant men in gleaming armour galloping along on their noble steeds in search of foes. But how accurate is this picture of knighthood? 'Knights' is a lavish guide to this world of courage and chivalry, when mounted warriors evolved from simple soldiers to defenders of the faith during the Crusades.

A magisterial history of the origins, reality, and legend of the knight Born out of the chaos of the early Middle Ages, the armored and highly mobile knight revolutionized warfare and quickly became a mythic figure in history. From the Knights Templars and English knighthood to the crusades and chivalry, *The Knight in History*, by acclaimed medievalist Frances Gies, bestselling coauthor of *Life in a Medieval Castle*, paints a remarkable true picture of knighthood—exploring the knight’s earliest appearance as an agent of lawless violence, his reemergence as a dynamic social entity, his eventual disappearance from the European stage, and his transformation into Western culture’s most iconic hero.

Arthurian expert Sir James Knowles brings together fourteen tales of King Arthur and his knights, inspired by Alfred, Lord Tennyson's first four 'Idylls of the King'. Here is a fascinating journey through the land of ancient England where magic, mystery and warring factions come together in cataclysmic fashion. Beginning with the finding of the wizard Merlin, Sir James recounts the discovery of the legendary sword Excalibur, King Arthur's victory over the Saxons and his marriage to the beautiful Guinevere, as well as his battles against armies from Europe and his evasion of Queen Morgan's attempts to kill him with a magic garment. Tales include: • The Prophecies of Merlin and the Birth of Arthur • The Miracle of the Sword and Stone • The Lady of the Lake • The Founding of the Round Table • The Adventures of Sir Gawain Revealing the escapades of the Knights of the Round Table, such as Lancelot, Bedivere, Bors, Modred, Tristram and Galahad, as they seek to protect Arthur's kingdom, we discover how these fabled figures found their destiny. ABOUT THE SERIES: Arcturus Classic Myths and Legends brings together beautiful retellings of mythologies from different traditions, from Celtic to Native American.

A magisterial history of the origins, reality, and legend of the knight Born out of the chaos of the early Middle Ages, the armored and highly mobile knight revolutionized warfare and quickly became a mythic figure in history. From the Knights Templars and English knighthood to the crusades and chivalry, "The Knight in History," by acclaimed medievalist Frances Gies, bestselling coauthor of "Life in a Medieval Castle," paints a remarkable true picture of knighthood—exploring the knight's earliest appearance as an agent of lawless violence, his reemergence as a dynamic social entity, his eventual disappearance from the European stage, and his transformation into Western culture's most iconic hero.

Completed in 1136, *The History of the Kings of Britain* traces the story of the realm from its supposed foundation by Brutus to the coming of the Saxons some two thousand years later. Vividly portraying legendary and semi-legendary figures such as Lear, Cymbeline, Merlin the magician and the most famous of all British heroes, King Arthur, it is as much myth as it is history and its veracity was questioned by other medieval writers. But Geoffrey of Monmouth's powerful evocation of illustrious men and deeds captured the imagination of subsequent generations, and his influence can be traced through the works of Malory, Shakespeare, Dryden and Tennyson.

Provides information on the actual life of King Arthur along with the development of the legends that surround his life.

The Faery Melusine of Lusignan was the subject of a prose romance by Jean d'Arras at the end of the 14th century, swiftly followed by one in verse by Couldrette. This book provides a collection of material from various sources, including translations from French texts, to give an all round picture of the remarkable faery, her town, her church, and the great Lusignan dynasty she founded.

The Knights of the Round Table were the original knights in shining armour, and this book is for anyone who is interested in fantastical tales of bravery or the actual history behind the stories. In medieval Arthurian tradition, Arthur often takes a back seat in the most exciting stories, appearing at the beginning and end of each to set the scene and conclude the tale. The central character is instead one of the Knights of the Round Table, each of whom is confronted with a wide variety of challenges and quests ranging from fighting monstrous creatures and rescuing damsels in distress to coping with courtly love and intrigue. Although Arthur is the best-known character from these stories his key knights - including Lancelot, Gawain, Perceval, and Tristan - are almost equally well known. This volume provides a collection of the most famous and interesting tales of the Knights of the Round Table, including the historical and literary background to the stories.
