Lean Management. We transform organizations by creating a new way of working—setting up systems to drive continuous improvement and engaging employees to meet customer needs more effectively. McKinsey believes that lean is much more than a “toolkit” or a methodology for removing waste. We completely transform how companies operate, focusing in particular on creating a culture of continuous improvement and a new leadership approach.

much of modern business, from manufacturing-related functions such as maintenance and R&D to industries as varied as healthcare and financial services.

~~Purchasing power: Lean management creates new value in ...~~

Lean management has helped organizations create value for over 70 years. Starting in the 1940s with its roots in the Toyota Production System, lean management has spread from manufacturing to service operations and just about every other department and function at companies, governments, and non-governmental institutions around the world. Lean organizations seek to identify and eliminate activity that is not valued by the customer or end user.
