From a renowned financial journalist who has written for Time, Fortune, Forbes, and The New Yorker, a fresh and unexpectedly profound book that draws on hundreds of hours of exclusive interviews with many of the world's super-investors to demonstrate that the keys for building wealth hold other life lessons as well. Billionaire investors. If we think of them, it's with a mixture of awe and suspicion. Clearly, they possess a kind of genius—the proverbial Midas Touch. But are the skills they possess transferable? And do they have anything to teach us besides making money? In *Richer, Wiser, Happier*, William Green draws on interviews that he's conducted over twenty-five years with many of the world's greatest investors. As he discovered, their talents extend well beyond the financial realm. They are master game players who consciously maximize their odds of long-term success in markets and life, while also minimizing any risk of catastrophe. They draw powerful insights from many different fields, are remarkably intuitive about trends, practice fanatical discipline, and have developed a high tolerance for pain. As Green explains, the best investors can teach us not only how to become rich, but how to improve the way we think, reach decisions, assess risk, avoid costly errors, build resilience, and turn uncertainty to our advantage. Green ushers us into the lives of more than forty super-investors, visiting them in their offices, homes, and even their places of worship—all to share what they have to teach us. *Richer, Wiser, Happier* brings together the thinking of many of the greatest investment minds, from Sir John Templeton to Charlie Munger, Jack Bogle to Ed Thorp, Will Danoff to Mohnish Pabrai, Bill Miller to Laura Geritz, Joel Greenblatt to Howard Marks. In explaining how they think and why they win, this landmark book provides gems of insight that will enrich you not only financially but also professionally and personally.

How do the rich get rich? An updated edition of the “remarkable” New York Times bestseller, based on two decades of research (The Washington Post). Most of the truly wealthy in the United States don't live in Beverly Hills or on Park Avenue. They live next door. America's wealthy seldom get that way through an inheritance or an advanced degree. They bargain-shop for used cars, raise children who don't realize how rich their families are, and reject a lifestyle of flashy exhibitionism and competitive spending. In fact, the glamorous people many of us think of as “rich” are actually a tiny minority of America's truly wealthy citizens—and behave quite differently than the majority. At the time of its first publication, *The Millionaire Next Door* was a groundbreaking examination of America's rich—exposing for the first time the seven common qualities that appear over and over among this exclusive demographic. This edition includes a new foreword by Dr. Thomas J. Stanley—updating the original content in the context of the financial crash and the twenty-first century. “Their surprising results reveal fundamental qualities of this group that are diametrically opposed to today's earn-and-consume culture.” —Library Journal

In her book, *WEALTH UNBROKEN*, Tax attorney and financial strategist Rebecca Walser maps out how to be one of the few who not only survives but thrives
