Real time Monitoring /Alerts Deployable in Azure & on - premise scenarios Works with numerous SaaS Applications Client side MFA SDK for native Apps | .NET, Java Perl, PHP, Ruby Works with Radius, LDAP..

### ~~Microsoft Azure - Services Overview~~

By default, Windows VMs that are deployed from Azure Marketplace are set to receive automatic updates from Windows Update Service. This behavior doesn't change when you add Windows VMs to your workspace. If you don't actively manage updates by using Update Management, the default behavior (to automatically apply updates) applies.
