Molding for Manufacturing: Improving Startup & Minimizing Downtime. Coronavirus-related restrictions are beginning to ease up in Michigan and other states, so many sectors are getting back to work. Manufacturing is notably among them, and by extension, plastic injection molders. With employee safety top-of-mind, many plastic injection molders, whether voluntarily or by legal decree, are limiting the number of people that can be on the floor each shift.

Everything Your Startup Needs To Know About Injection Molding. May 14, 2019. Matt Poischbeg. You have fresh ideas and are early in your process as a startup company. You have a lot of decisions to make on materials for your new ideas, manufacturing processes, and especially finding a manufacturing partner that can help bring your new ideas to life. Most likely injection molding is one of your manufacturing processes on the list.

~~Everything Your Startup Needs To Know About Injection Molding~~

Molding machines are only the beginning of a long list of equipment needed to run an injection molding operation. The equipment list of even a midsized injection molder reads like a whoâ€™s who in the equipment-supply business. Here's just one example of an actual production equipment listing for a 15-press molding facility.
