This work is both a meditation on the theory of literary biography and an examination of the relationship between Tennessee Williams and the texts attributed to him.

This book presents a new translation of the Spiritual Exercises of Ignatius de Loyola, of his Spiritual Diary, of his Autobiography, and some of his letters. These translations are introduced by a hermeneutical commentary laying out the theory and practices of the decision-making power of imagining. Ignatius proposed in his Spiritual Exercises a form of decision-

oriented mysticism, and through their use, gathered around him a group of associates who became the first members of the Jesuit Order. Under the control of later, doctrinally oriented theologians, the practical, decision-oriented mystical character of the original Exercises was gradually replaced by a more theoretical and devotional character. Antonio T. de Nicolas recovers in his translations and through his critical apparatus, the original decision-oriented thrust of Ignatius.

Taking at its starting point the idea that Kubrick's cinema has constituted an intellectual, cerebral, and philosophical maze in which many filmmakers (as well

as thinkers and a substantial fringe of the general public) have gotten lost at one point or another, this collection looks at the legacy of Kubrick's films in the 21st century. The main avenues investigated are as follows: a look at Kubrick's influence on his most illustrious followers (Paul Thomas Anderson, the Coen Brothers, Christopher Nolan, Ridley Scott, and Lars von Trier, to name a few); Kubrick in critical reception; Kubrick in stylistic (camera movements, set designs, music), thematic (artificial intelligence, new frontiers-large and small), aesthetic (the question of genre, pastiche, stereoscopy) and political terms (paranoia, democracy and secret societies, conspiracy theories). The contributions coalesce around the concept of a

Kubrickian substrate, rich and complex, which permeates our Western cultural landscape very much to this day, informing and sometimes announcing/reflecting it in twisted ways, 21 years after the director's death.

Much theoretical debate has occurred about James Joyce's *Ulysses* as a model for reading. Critics often cite it as the ideal writerly text, where, according to Barthes, the reader becomes actively involved in producing meaning rather than a mere consumer of words. Post-structuralist, Marxist, and feminist theorists variously see the novel as the place to discover the infinite deferral of understanding, the

polyphonic text that liberates the reader from narrow ideological meaning, or the work that undercuts prevalent psychoanalytical notions of language and offers new interpretive strategies. In many ways, Ulysses is a chameleon text, accommodating multiple interpretations while permitting infinite possibilities for discovery. Pedagogy, Praxis, Ulysses approaches Joyce's novel not simply as a text to be examined, but as a touchstone to generate theoretical and practical ideas for innovation in teaching. The collection employs Ulysses as a springboard for thought-provoking questions about how we read, learn, and teach--and about how new, open-minded approaches to pedagogy can communicate to students the value

of interpreting as a strategy of survival, and questioning as a vital technique for experiencing life. Contributors to the volume are M. Keith Booker, Sheldon Brivic, Kevin Dettmar, Michael Patrick Gillespie, Roy Gottfried, Margaret Mills Harper, R. Walkiewicz, Craig Werner, and Jennifer Wicke. "For anyone who cares about teaching Joyce--or teaching at all-- this volume is a rich, provocative, surprising, invigorating, and, above all, passionately argued collection. The essays are astonishingly different, despite their common focus on Ulysses, but

what they all share is a sense of the classroom as a powerful forum for challenging received ideas."

The female body has occupied a central place in the Western imagination, its images pervading poetry and story, mythology and religious doctrine, the visual arts, and scientific treatises. It has inspired both attraction and fear, been perceived as beautiful and unclean, alluring and dangerous, a source of pleasure

and nurturing but also a source of evil and destruction. In *The Female Body in Western Culture*, twenty-three internationally noted scholars and critics, in specially commissioned essays, explore these representations and their consequences for contemporary art and culture. Ranging from Genesis to Gertrude Stein and Angela Carter, from ancient Greek ritual to the Victorian sleeping cure, from images of the Madonna to modern film and Surrealist art, the essays cover a wide spectrum of approaches and subject matter. They all converge, however, around questions of power and powerlessness, voice and silence, subjecthood and objectification. And they point the way to the new possibilities and

displacements of traditional male-female oppositions. Androgyny in a new key? This book demonstrates that a blurring of gender boundaries does not have to deny difference.

An English translation of important text in the history of socialism.

In this hermeneutic analysis of seven literary texts, Stephanie Barbé Hammer studies the roles of criminal protagonists in the dramas of George Lillo (*The London Merchant*) and Friedrich Schiller (*The Robbers*) and in the narratives of Abbé de Prévost (*Manon Lescaut*), Henry Fielding (*Jonathan Wild*),

Marquis de Sade (Justine), William Godwin (Caleb Williams), and Heinrich von Kleist (Michael Kohlhaas). Hammer reflects the current interest in cultural critique by utilizing the social theories of Michel Foucault and the feminist approaches of Hélène Cixous and Eve Sedgwick to redefine the Enlightenment as a movement of thought rather than as a strictly defined period synonymous with the eighteenth century. In addition, through the examination of the works of three post-World War II authors (Jean Genet, Anthony Burgess, and Peter Handke), Hammer suggests that the Enlightenment's artistic representations of criminality are unparalleled by subsequent modern literature. Hammer explains

that the seven works she focuses on have been dismissed as failures by readers who have misunderstood the texts' aesthetic elements. While claiming that the form of these works breaks down under the pressure of their criminal protagonists, she asserts that this formal failure actually contributes to the success of the works as art. The works "fail" because, like the criminal characters themselves, they break laws. The criminal protagonist effectively sabotages the official story that the text seeks to tell by deflecting the plot, style, and formal requirements in question, subverting its message—be it moral, sentimental, or libertine—through a kind of structural undermining, forcing the text beyond its own formal

boundaries. For example, Hammer maintains that the presence of the criminal figure, Millwood, in Lillo's bourgeois tragedy actually makes the play covertly antibourgeois. Hammer insists that the criminal's subversive presence in these seven works inaugurates new insight, and her analysis thereby challenges late twentieth-century readers to continue the investigation that the works themselves have begun. This book will prove indispensable to scholars of comparative literature, especially eighteenth-century specialists, as well as to all individuals interested in cultural critique.

Concerning itself with biography and bio-fiction

written in English and in French and also taking in American and Australian subjects, *Outsider Biographies* focuses on writers who have a criminal record and on notorious criminals who authors of bio-fiction consider as writers. It pursues an understanding of the formal effects of life-writers' struggles between championing their subjects and a deep ambivalence towards their subjects' crimes. The book analyses the challenge that these literary outsiders present to the mainstream French- and English-language traditions where many biographers assign merit to productive lives well lived. The book's approach illuminates both differences in those traditions from the mid-eighteenth, to the twenty-first

century and a convergence between them, evident in the experimental-cum-fictional devices in recent English-language biography. *Outsider Biographies* advances wide-ranging new interpretations of the biographical writing on each of its seven subjects, but does so in a way that invites the reader picking up the book out of a passion for just one of those subjects, to follow the thread onto another and yet another.
