and a solvent. A solution involves one substance dissolving in another substance, which is usually a liquid. 11. A solution is a special type of mixture.

Mixtures & Solutions PPT - SlideShare

Science is concerned with understanding how nature and the physical world work. Science is a process by which we try to understand how the natural and physical world works and how it came to be that way. Science actually attempts to disprove ideas (hypotheses). Science is limited strictly to solving problems about the physical and natural world.

Physical Science: Concepts in ...
Solutions are spoken of as having two components, the solvent, and the solute. Another classification of the solution depends on the amount of solute added to the solvent. A dilute solution contains a small amount of solute in a large amount of solvent. A concentrated solution contains a large amount of solute dissolved in a small amount of solvent.
