Srs Document For Banking System

The SRS can be a single document communicating functional requirements or it may accompany other software documentation like user stories and use cases. We don ' t recommend composing SRS for the entire solution before the development kick-off, but you should document the requirements for every single feature before actually building it.

Functional and Non-functional Requirements: Specification ...

Example Srs Document For Banking System A software requirements specification (SRS) is a document that describes what the software will do and how it will be expected to perform. It also describes the functionality the product needs to fulfill all stakeholders (business, users) needs. A typical SRS includes:
