Technical analysis is a tool, or method
Valuation Methods When valuing a
company as a going concern there
are three main valuation methods
used: DCF analysis, comparable
companies, and precedent, used to
predict the probable future price
movement of a security – such as a
stock
Stock What is a stock? An
individual who owns stock in a
company is called a shareholder and
is eligible to claim part of the
company ' s residual assets and
earnings (should the company ever
be dissolved).
