Amanda Briney is a professional geographer. She holds an M.A. in geography and a Certificate of Advanced Study in Geographic information Systems (GIS). Anaximander was a Greek philosopher who had a deep interest in cosmology as well as a systematic view of the world ( Encyclopedia Britannica ). Although little about his life and world is known today he was one of the first philosophers to write down his studies and he was an advocate of science and trying to understand the structure and ...

*Biography of Greek Philosopher Anaximander*

Anaximander was the first astronomer to consider the Sun as a huge mass, and consequently, to realize how far from Earth it might be, and the first to present a system where the celestial bodies turned at different distances. Furthermore, according to Diogenes Laertius (II, 2), he built a celestial sphere.
