I love his image of the child as a flower: vulnerable, yet strong with the will to grow and thrive. Dandelions are one of my favourites – so bright, hardy and stubborn. You see them blooming in the most adverse conditions, in the cold of winter or the concrete of the city.

Brigg lives in a small, grey room in a large, grey city. When he finds a book in the library labelled 'Do Not Read', he cannot resist taking it home. In it, he comes upon pictures of bright, vibrant objects called flowers. He cannot find flowers anywhere in the city, but stumbles instead on a packet of seeds. This sets off a chain of events which bring about unexpected results, continuing to grow and bloom even after we have turned the last page. John Light's enigmatic story is told with utter simplicity, but resonates long after we finish reading this book. His increasingly optimistic vision is hauntingly captured by Lisa Evans's beautiful and whimsical illustrations.

Susan Orlean's bestseller and New York Times Notable Book is "a sheer delight...as rich in insight and as varied as the treasures contained on the shelves in any local library" (USA TODAY)—a dazzling love letter to a beloved institution and an investigation into one of its greatest mysteries. "Everybody who loves books should check out The Library Book" (The Washington Post). On the morning of April 28, 1986, a fire alarm sounded in the Los Angeles Public Library. The fire was disastrous: it reached two thousand degrees and burned for more than seven hours. By the time it was extinguished, it had consumed four hundred thousand books and damaged seven hundred thousand more. Investigators descended on the scene, but more than thirty years later, the mystery remains: Did someone purposefully set fire to the library—and if so, who? Weaving her lifelong love of books and reading into an investigation of the fire, award-winning New Yorker reporter and New York Times bestselling author Susan Orlean delivers a "delightful...reflection on the past, present, and future of libraries in America" (New York magazine) that manages to tell the broader story of libraries and librarians in a way that has never been done before. In the "exquisitely written, consistently entertaining" (The New York Times) The Library Book, Orlean chronicles the LAPL fire and its aftermath to showcase the larger, crucial role that libraries play in our lives; delves into the evolution of libraries; brings each department of the library to vivid life; studies arson and attempts to burn a copy of a book herself; and reexamines the case of Harry Peak, the blond-haired actor long suspected of setting fire to the LAPL more than thirty years ago. "A book lover's dream...an ambitiously researched, elegantly written book that serves as a portal into a place of history, drama, culture, and stories" (Star Tribune, Minneapolis), Susan Orlean's thrilling journey through the stacks reveals how these beloved institutions provide much more than just books—and why they remain an essential part of the heart, mind, and soul of our country.

She was a perfect baby, and she had a perfect name. Chrysanthemum. Chrysanthemum loved her name—until she started school. A terrific read-aloud for the classroom and libraries!
