As a brand new futures investor and trader with zero knowledge of the business you are at a loss as to what information you actually do and do not need. Much of what the current trading education industry is putting out is not only giving you information that is all backwards, it is very unrealistic to do in the live markets, and can get you into a lot of trouble. Why would you want to learn something that could potentially cause you to lose money right away in your new trading business? The trading education industry is not regulated so beware of that. I have seen brand new futures investors and traders waste a serious amount of valuable education and training time on learning information that will not do them any good and can even cause them to lose some of their hard earned money right away in the live markets.
