Explore the foundations of yourself and your mate to uncover any areas of dysfunction that may be hurting your relationship. Learn how to rebuild a shaky foundation in your marriage, and how to change your emotional and spiritual intimacy.

Don and Jan Frank explore the tough husband-wife relationships caused by either or both coming from a dysfunctional family, especially when there has been sexual abuse. Readers learn how to tell if their mate was victimized as a child and how to deal with feelings about the abuse.

Previously published as Marry Smart and now updated with a new foreword responding to the controversy that followed its initial release, this is the unvarnished truth about marriage, motherhood, and happiness from the " Princeton Mom. " Says James Taranto of The Wall Street Journal, " Every smart young woman should seriously consider Susan Patton ' s commonsense advice. Sure, it ' s controversial—but only because it ' s so vital. " A graduate of one of the first classes of women at Princeton University, Susan Patton has heard smart young women admit they aspire to marriage and motherhood but have no model for pursuing those goals. Reflecting on the choices she made in her early twenties, she ' s boldly turned the tables on our " career first " conditioning and suggests that you seek out the golden opportunities right in front of you, right now. In Marry By Choice, Not By Chance, Patton shares the wisdom of her experience with warmth, humor, and very straight talk. But this is not your mother ' s dating guide—Marry By Choice, Not By Chance celebrates the vital achievements of traditional marriage and motherhood, and gives you the essential life strategies that no one ' s talking about, including how to strike while the greatest number of single young men is available to you; attract a man who is your intellectual and emotional equal; date to find a mate; and find total satisfaction in your roles as a wife and mother. Whether or not you are in college, whether your future plans are clear or still undecided, Marry By Choice, Not By Chance is a must-read for all young women who want to get the most out of love and life.

Paralysis is a haunting and terrifying tragedy that permanently changes the lives of its victims and families. And the specter of paralysis is real and threatening if Superman can become a victim. Normal life ceases to exist for a quadriplegic. Coping and surviving with an unmoving, unfeeling body is an imposing emotional and physical burden. No one looks at a paralysis victim without an impulse of pity for that person and fear that it could be he or she in that wheelchair. And everyone asks the same questions: What if that happened to me? What is that life like? How are the bodily functions I take for granted performed? Can paralysis victims have a sex life? If so, how? The increasing number of American men who marry Eastern European women has become a unique phenomenon since the breakup of The Soviet Union and advent of the internet. These men have various motives: A young, exotic, trophy wife. A less independent and more obedient wife. And love. These women also have various motives: A better and more prosperous life in America. A green card that gives them a freedom and independence they have never known. And also love. But do these marriages succeed? What are the cultural conflicts involved? Are there scammers for gullible and desperate men to discover before, or after it is too late? And are there horror stories of deceit and violence? Between Grief and Nothing is an autobiography by Wade Stinson that explores those issues and much more. The title is taken from a quote in William Faulkner's short story, "The Wild Palms." "Between grief and nothing, I will take grief." The book begins by establishing Stinson's identity, family, and culture in rural Alabama. The voice and prose is distinctly Southern as the author himself. He introduces readers to his world and the life he knew beginning in 1957. He describes his family of destructive, alcoholic men and forgiving, durable women. The reader will learn about the distorted dreams Stinson conjured amid the quirky, and often humorous life of rural Alabama. A life of rebellion against the austere Pentecostal religion of his father. And, a youthful perspective of his first experience with alcohol, sex, and love. The book vividly details the trauma of a diving accident that left him a quadriplegic at seventeen years of age and follows him through the crude realities associated with paralysis: bodily functions, humiliating incidents, and sex as a paralysis victim. An issue many literary critics express as one too often "fudged upon" by evasive, celebrity writers. Stinson continues with his slow and measured reemergence into society as he finally accepts his paralyzed condition and begins to enjoy life in the swamps of Alabama. And later, his reckless escapades to try to recapture his wild youth. And afterwards, his first marriage and the teaching position he earned that provided the rewarding relationships with students and their acceptance of him as a "wheelchair bound teacher. Apart from the book's early focus on the eccentric Southern environment and the trauma of quadriplegia, the remaining focus will be a revelation of the growing phenomenon of American men who seek and marry Russian women through internet introduction agencies. A strange marriage between a Russian bride and a quadriplegic Southerner is explored in perspective. The reader will follow this quirky marriage with its episodes of extreme love, cultural conflict, and personal turmoil. The audience will finish this book not with pity, but entertained, warned, and inspired by the survival, ho

Awarded honorable mention for the 2007 Wallace K. Ferguson Prize sponsored by the Canadian Historical Association How were marital and sexual relationships woven into the fabric of late medieval society, and what form did these relationships take? Using extensive documentary evidence from both the ecclesiastical court system and the records of city and royal government, as well as advice manuals, chronicles, moral tales, and liturgical texts, Shannon McSheffrey focuses her study on England's largest city in the second half of the fifteenth century. Marriage was a religious union—one of the seven sacraments of the Catholic Church and imbued with deep spiritual significance—but the marital unit of husband and wife was also the fundamental domestic, social, political, and economic unit of medieval society. As such, marriage created political alliances at all levels, from the arena of international politics to local neighborhoods. Sexual relationships outside marriage were even more complicated. McSheffrey notes that medieval Londoners saw them as variously attributable to female seduction or to male lustfulness, as irrelevant or deeply damaging to society and to the body politic, as economically productive or wasteful of resources. Yet, like marriage, sexual relationships were also subject to control and influence from parents, relatives, neighbors, civic officials, parish priests, and ecclesiastical judges. Although by medieval canon law a marriage was irrevocable from the moment a man and a woman exchanged vows of consent before two witnesses, in practice marriage was usually a socially complicated process involving many people. McSheffrey looks more broadly at sex, governance, and civic morality to show how medieval patriarchy extended a far wider reach than a father's governance over his biological offspring. By focusing on a particular time and place, she not only elucidates the culture of England's metropolitan center but also contributes generally to our understanding of the social mechanisms through which premodern European people negotiated their lives.

When a Woman Is in an Emotional Tug-of-War for Her Man's Heart Why can't he commit? Many women find themselves asking this question when in love with a man who won't get married, won't stop womanizing, or refuses to give up his sex addictions. Often this kind of man is bound by an unhealthy attachment to his mother. This phenomenon is called "mother-son enmeshment." In When He's Married to Mom, clinical psychologist and renowned intimacy expert Dr. Kenneth M. Adams goes beyond the stereotypes of momma's boys and meddling mothers to explain how mother-son enmeshment affects everyone: the mother, the son, and the woman who loves him. In his twenty-five years of practice, Dr. Adams has successfully treated hundreds of enmeshed men and shares their stories in this informative guide. He provides proven methods to make things better, including: -- Guidelines to help women create fulfilling relationships with mother-enmeshed men -- Tools to help mother-enmeshed men have healthy and successful dating experiences leading to serious relationships and marriage -- Strategies to help parents avoid enmeshing their children When He's Married to Mom provides practical and compassionate advice to the women who are involved with mother-enmeshed men, to the mothers who wish to set them free, and to the men themselves.

A social worker struggling to keep the peace with her increasingly volatile husband for the sake of their children finds herself fighting for her life in the hospital after his temper gets the best of him one rainy day. By the best-selling author of The Comfort of Lies, 50,000 first printing.

A husband-and-wife doctor team offers fresh and startling perspective on one of our most cherished and misunderstood institutions. Drs. Astro and Danielle Teller know better than most that finding the right partner in life doesn' t always happen the first time around. Through their own divorces they learned how widely held cultural assumptions and misinformation that nobody thinks to question—what they refer to as " sacred cows "—create unnecessary heartache for people who are already suffering through a terrible time. Do you think, for example, that the divorce rate in the United States is rising? Or that children are harmed by divorce? Most people do, but it turns out that neither of these notions is supported by the data. Combining the rigor that has established them as leaders in their respective fields along with a dose of good-natured humor, the Tellers ask readers to take a fresh look at seven common sacred cows: the Holy Cow, the Expert Cow, the Selfish Cow, the Defective Cow, the Innocent Victim Cow, the One True Cow, and the Other Cow. This is not a book that is "for " marriage or "for " divorce, but "for " the freedom to decide how to live most honestly and happily either as part of a couple or a single person.

"Rejecting easy explanations of the genocide as a mysterious evil force that was bizarrely unleashed, one of Africa's best-known intellectuals situates the tragedy in its proper context. He coaxes to the surface the historical, geographical, and political forces that made it possible for so many Hutu to turn so brutally on their neighbors. He finds answers in the nature of political identities generated during colonialism, in the failures of the nationalist revolution to transcend these identities, and in regional demographic and political currents that reach well beyond Rwanda. In so doing, Mahmood Mamdani broadens understanding of citizenship and political identity in postcolonial Africa." "Mamdani's analysis provides a foundation for future studies of the massacre. His answers point a way out of crisis : a direction for reforming political identity in central Africa and preventing future tragedies."-R èsum é de l' èditor.

Tells why a woman should remain single, arguing that by giving up her own lifestyle to accommodate a man's she cannot fulfill her own potential
