## Will Africa Feed China? by Deborah Brautigam

Is China building a new empire in rural Africa? Over the past decade, China's meteoric rise on the continent has raised a drumbeat of alarm. China has 9 percent of the world's arable land, 6 percent of its water, and over 20 percent of its people. Africa's savannahs and river basins host the planet's largest expanses of underutilized land and water.
